\$15,166

The Rinnai 950 represents a new generation of gas fire from Rinnai, achieving excellence in both energy efficiency and heat output, including a high 5.5* star rating and incredible heat output up to 8.1 kW**.

Combining a modern, elegant appearance with incredible efficiency, this premium gas fire heater is a must-have addition to bring warmth and ambience into your home. Perfect for large spaces and open plan living, the 950 gas fire has an output of 8.1kW**, creating a warm and cosy atmosphere that you'll cherish.

With a host of extra features including a safety mesh guard and easy-to-use remote with temperature display, you'll experience peace of mind and comfort during those chilly months. Settle in beside a flickering flame this winter with the Rinnai 950 gas fire.

1250 Natural Gas Fire Place

Provide a Rinnai 1250 - K1252 Natural Gas Fireplace to external wall of the lounge room & approx. 150mm from Slab level. Consist of additional framed and Plasterboard lined wall approx. 1800mm x 600mm, Horizontal flue with a choice of black on black fascia or stainless steel on black fascia and Logset or Ceramic Stones.

Excludes: Mantel, Hearth and any feature finishes to wall.

Important Design Notes: All Horizontal Flues must be approx. 1500mm away for openings and any AC Compressor unit.

\$16,505

At over 1300mm in length, the long landscape design of the 1250 gas fire creates a striking centre piece that meets a variety of interior design styles. More than just a design feature, the 1250 gas fire is equipped with Rinnai's high performance heat exchanger technology, rapid warm-time and easy-to-use temperature display remote - perfect for quickly heating large, open plan living spaces.

The 1250 pushes the boundaries of traditional gas fires with the optional side reflectors, which give the desired illusion of an everlasting flame with a subtle presence when the appliance is not in use.

Featuring an energy efficiency star rating up to 5.5 stars*, the 1250 is our most efficient built in gas fireplace ever – so you can relax, for longer.
