COMPLEMENTARY BASIX UPGRADE PACKAGE

Increased energy efficiency targets will apply to all new homes in NSW from 1 October 2023, including stricter requirements for insulation, glazing, and ventilation, as well as the installation of energy-efficient appliances and lighting.

While this is good news for your home's energy efficiency, ongoing costs, and the environment, it means increased building costs in the short term. To help alleviate the additional costs, Kurmond Homes is providing a free upgrade package valued over \$10,000 for all new deposits for a limited time only.

THE PACKAGE INCLUDES:

- R2.5 insulation in lieu of R2.0 to external walls only
- Provide R6.0 Insulation in lieu of R3.0 to ceiling with roof over only
- Provide standard range ceiling fans to bedrooms (up to 4 Bedrooms)
- Provide and install 6.6kW solar system with 5kW inverter
